## Quarta® Audit

Preparing questions and questionnaires, defining audit, assessment and analysis plans.

This module offers a tool for planning and carrying out all the maintenance activities of the equipment and systems intervening in the process.

Quarta® allows to:

- Check system conformity;
- Check the efficiency of the implemented quality system;
- Evaluate the suppliers;
- Check the maintenance in time of supplier qualification.

### Analysis

- Trend evaluation of the visit and calculation of the results;
- Exporting data in Excel®;
- Zoom down analysis of the Non conformities deriving from the Inspection;
- Graphics.

### Questionnaires

- Freely configurable question evaluation metric;
- Presetting the allowed answers and relative scores;
- Aggregation of the questions forming the questionnaires;
- Possibility of temporarily excluding a question when carrying out the questionnaire;
- Possibility of executing the audit on time or printing the paper questionnaire and copying the results;
- Management of different types of reports and attached documents;
- Possibility of generating automatically a Non conformity and any Corrective Action to be undertaken;
- The standard configuration of **Quarta®** includes the Anfia, AVSQ 94, metrics for evaluating the quality systems. This metric contains a check list developed according to ISO STANDARD 9001, enriched with the additional concepts of ISO 9004-1.
